There were many users dissatisfied with the original trial version of this app that we decided to give it a try. We were pleasantly surprised with what we saw and we decided to publish this updated review today. So, what's new? youtube video editor pro new is a video editor that is based on JavaScript. This means you can edit your videos from any online platform. There are many features that come with this. In our case, we wanted the ability to edit any format that can be imported into this app. So, we tried working with the MP4, 3GP and MOV format. We were able to import the video and start editing it by pressing the "Edit Video" button on the app's interface. Then we have several editing features. The editors are as follows; trimming, rotating, stop motion, adding effects, cropping, titling and watermarking. youtube video editor pro new is a 3 sided interface but it does not limit you to just this kind of editing. As far as the video is a web based one, you should be able to use the 3D feature. The app b7e8fd5c8
